Welcome to

PRS KOREA 2025

PRS KOREA 2025, the 83rd annual congress of the Korean Society of Plastic and Reconstructive Surgeons, is an international conference dedicated to the latest advancements in aesthetic and reconstructive plastic surgery. This year, the event will take place in person from November 9th (Sunday) to 11th (Tuesday), 2025, at the Grand Intercontinental Seoul Parnas in Seoul, Korea.

With the theme "Beyond Boundaries, Toward a New Era," PRS KOREA 2025 aims to redefine the future of plastic surgery by fostering innovation, collaboration, and knowledge exchange on a global scale.

Last year, PRS KOREA 2024 successfully brought together 1,380 plastic surgeons from 45 countries, including approximately 450 international participants and faculty members. Building on this success, we are excited to welcome an even more dynamic gathering of experts, thought leaders, and innovators.

Join us at PRS KOREA 2025 as we push the boundaries of aesthetic and reconstructive plastic surgery, shaping a new era of excellence in the field.
