Short Bio		
Assoc. Prof. Joe Dusseldorp, MBBS, PhD, is a Specialist Plastic Surgeon based in Sydney, Australia. He completed his Board Certification training through the Royal Australasian College of Surgeons and graduated with honours from the University of Sydney Medical School. His predominant focus is microsurgical breast reconstruction using the DIEP flap and he personally performs 200 flaps annually. He is committed to developing techniques that minimise harm to the abdominal wall, including robotic-assisted DIEP harvest, SIEA flap, and the use of resorbable mesh in abdominal wall closure. He provides his patients with options that are not just up-to-date, but are at the leading edge of surgical practice, through strong collaborations with innovators in his field locally and internationally. He is co-convening the breast section of the 8th Congress of APFSRM (Asia Pacific Federation of Societies of Reconstructive Microsurgery) to be held in Melbourne, Australia, May 18-20, 2028.
